STEPHEN SEYI-OLAORE
COMPUTER SCIENTIST

PROFESSIONAL SUMMARY

I am a dynamic and highly skilled Computer Science graduate with a robust background in software development and graphic design. I am proficient in JavaScript and Python, with a proven ability to create innovative solutions and visually compelling designs. I am also an exceptional communicator with a track record of successfully leading projects and collaborating with cross-functional teams. I'm seeking to leverage my technical and creative skills to contribute to a forward-thinking company.

WORK EXPERIENCE

- **Femtech PC clinic**   Siwes Internship   2019

- **University of Ibadan**   NYSC   2023-2024
  - In charge of a digitalization project in the institute of African studies.
  - Managing a website and it's server.

- **Fipay**   Fintech Internship   MARCH 2025 - SEPTEMBER 2025

- **As a Graphic designer**

  I have:
  • Created visually appealing graphics, logos, and marketing materials using Canva, Adobe Photoshop and Illustrator.
  • Worked closely with clients to understand their vision and deliver customized design solutions that exceeded expectations.
  • Managed multiple design projects simultaneously, ensuring timely delivery and adherence to brand guidelines.
  • Developed user-friendly UI/UX designs for web and mobile applications, enhancing user engagement and satisfaction.
  • Created compelling motion graphics/videos for a YouTube channel using capcut and alight motion. I've also created other motion graphics projects using adobe aftereffects.

- **As a Freelance Web Developer and Designer on Upwork**

  I have:
  • Designed and developed custom websites and applications for a diverse range of clients, ensuring a seamless user experience.
  • Utilized a mix of programming and design skills to create cohesive and aesthetically pleasing digital products.
  • Built and maintained strong client relationships, resulting in repeat business and referrals.
  • Implemented SEO best practices, improving clients' website visibility and search engine rankings.

  Some of my projects include:
  An E-Commerce Platform
  • I developed a full-featured e-commerce platform using React, Node.js, and MongoDB.
  • Integrated payment gateways and ensured secure user authentication and data protection.
  • Designed a user-friendly interface that enhanced the shopping experience and increased user retention.

  My Portfolio Website:
  • I created a personal portfolio website to showcase some of my projects and skills. Some of these projects includes other websites that I created for other individuals and companies.
  • Implemented responsive design principles to ensure optimal performance across devices.
  • Utilized JavaScript and CSS animations to enhance the visual appeal and user engagement.

  Certifications
  Software engineering and leadership program.   Decagon 2025
  IT automation with python.   Coursera 2021
